## EDUCATION

Sombrero-Mini offers toddlers with and without disabilities a completely new, shared swinging experience – in the safest possible way. A raised section in the centre of the Sombrero allows users not only to lie down, crouch or stand, but also to sit securely and lean back with firm support.

## INCLUSION

Sombrero-Mini offers many advantages for children with disabilities: they can swing alone or in groups, sit, lean back and simply enjoy a great experience. The clear focus is on safe swinging for children with disabilities.

## MOTOR SKILLS

Sombrero-Mini introduces a completely new form of safe swinging and supports the playful development of motor skills in young children up to the age of 3. Its special shape and integrated backrest allow children to explore movement safely and develop their motor skills in a playful way. The stable backrest provides additional support and safety, helping to strengthen motor skills in a targeted and individual way.
