EDUCATION

SWINGING THAT BRINGS PEOPLE TOGETHER

The Sombrero offers a completely new swinging experience – especially for people with disabilities. Thanks to the raised center of the nest, users can not only lie down, squat, or stand, but also sit securely and lean back with support. It's a place to feel safe, relax, and enjoy meaningful moments together.

INCLUSION

SWING TOGETHER, SMILE TOGETHER

The Sombrero is more than a swing – it's a shared experience. Whether used alone or in groups, children and adults with or without disabilities can swing, relax, and enjoy joyful moments side by side. The inclusive design ensures easy and safe access for everyone, promoting community, empathy, and shared adventure.

MOTOR SKILLS

MOVEMENT WITH CONFIDENCE

Whether it's gentle swaying or energetic swinging – the Sombrero brings movement and fun to all. Those with more advanced motor skills can use it like a classic nest swing. For individuals with limited mobility, the built-in backrest provides security and opens up new ways to train balance, coordination, and body awareness – all through playful motion.
